<u>For Homework assignments, you will create word document or PDF file for each homework assignment completed.</u>

- Make certain you have followed the correct naming convention for your documents. Give your file name as per the submission file name rules (Naming Convention) described in file "Naming_Covention_CIS4204", uploaded and available in CANVAS under "files" link.
- Appropriate screen-shots or photos should be taken throughout the homework and embedded within the document as evidence of completion. Each screen-shot or photo should also be captioned to explain what interesting idea/concept is being shown.
- Each word file /PDF file have minimum 150 words explanation about homework and must contain reference / citation detail of resources used like books, Websites, tools, software.

The Following Homework assignments are due by due date:

Examine "Laws Addressing Hacking, Unauthorized Access, Computer Trespass, Viruses and Malware" for Florida State and California State.

For this homework, use Internet search engines to gather information on above and Write a critical summary explaining how this law can affect ethical hackers, security testers and penetration testers. You can explore any web material but <u>not cut and paste</u>. Read and then <u>write your own critical comments – thoughts</u>.
